Visoka škola strukovnih studija za informacione tehnologije

Star Wars

https://starwars-fanpage.herokuapp.com/

Smer: Internet tehnologije

Modul: Web programiranje

Predmet: Web programiranje

Olja Ivković 34/16

Sadržaj

Uvod

1.1. Korišćeni programski jezici

Za izradu sajta korišćeni su sledeći programski jezici i tehnologije:

- HTML 5
- CSS 3
- JavaScript
- jQuery
- JSON
- Ajax
- XAMPP
- Heroku
- Git
- Atom

*Zbog Heroku web host-a sve stranice umesto .html ekstenzije imaju ekstenziju .php.

1.2. Opis funkcionalnosti

Sajt sadrži sledeće funkcionalnosti:

- **Modal forma** napisana u JavaScript-u
- **Provera podataka** koja se vrši regularnim izrazima
- **Dinamično učitavanje** pomaže da postoji samo jedan html template za sve vesti
- **Galerija slika** koja u zavisnosti od izbora opcije u custom selectbox-u filtrira slike, i potom slike prikazuje preko lightbox plugin-a
- **Responzivan slajder** koji realizuje prikaz glumaca na početnoj strani
- **JSON** za gotovo sve podatke koji postoje na sajtu
- **"Sendvič"** dugme za pojavljivanje navigacije

1.3. Templates

1.4. Korišćeni CSS

ligthbox.css:

```css
html.lb-disable-scrolling {

 overflow: hidden;

 /* Position fixed required for iOS. Just putting overflow: hidden; on the body is not enough. */

 position: fixed;

 height: 100vh;

 width: 100vw;

}

.lightboxOverlay {

 position: absolute;

 top: 0;

 left: 0;

 z-index: 9999;
```

```css
  background-color: black;

  filter: progid:DXImageTransform.Microsoft.Alpha(Opacity=80);

  opacity: 0.8;

  display: none;

}

.lightbox {

  position: absolute;

  left: 0;

  width: 100%;

  z-index: 10000;

  text-align: center;

  line-height: 0;

  font-weight: normal;

}

.lightbox .lb-image {

  display: block;

  height: auto;

  max-width: inherit;

  max-height: none;

  border-radius: 3px;

  /* Image border */

  border: 4px solid white;

}

.lightbox a img {
```

```css
  border: none;}
.lb-outerContainer {
  position: relative;
  *zoom: 1;
  width: 250px;
  height: 250px;
  margin: 0 auto;
  border-radius: 4px;

  /* Background color behind image.
    This is visible during transitions. */
  background-color: white;
}

.lb-outerContainer:after {
  content: "";
  display: table;
  clear: both;
}

.lb-loader {
  position: absolute;
  top: 43%;
  left: 0;
  height: 25%;
  width: 100%;
  text-align: center;
  line-height: 0;
```

```css
}

.lb-cancel {
  display: block;
  width: 32px;
  height: 32px;
  margin: 0 auto;
  background: url(../images/loading.gif) no-repeat;
}

.lb-nav {
  position: absolute;
  top: 0;
  left: 0;
  height: 100%;
  width: 100%;

2.3. Opis stranica sajta

index.php

Početna stranica je podeljena u dva segmenta. Na vrhu stranice u desnom uglu se nalazi dugme koje otvara navigacioni meni koji je inicijalno sakriven. On sadrži linkove ka svim ostalim stranama. Klikom na "x" meni se ponovo sakriva. Na dnu sajta se nalazi footer sa eksternim linkovima koji vode ka Star Wars profilima na društvenim mrežama. Prelaskom mišem preko društvenih ikonica, iste se smanjuju i povećavaju. Tokom skroll-ovanja pojavljuje se strelica koja vraća na vrh stranice sajta.

● Prvi segment je slajder sa informacijama o glumcima koji je responzivan i koji reaguje na promenu rezolucije. Za fullscreen prikazuje četiri glumca, za tablet tri, a za mobilni telefon po jednog. Slike se menjaju strelicama sa leve i desne strane, po 4, 3 ili 2 glumca na klik. "Next" strelica se disable-uje kada se dodje do kraja niza, a "Previous" strelica kada smo na početku niza. Putanje do slika, alt atributi, imena glumaca i imena uloga u SW-u dohvatala sam preko AJAX-a iz JSON-a.

● Drugi segment su vesti koje se menjaju na svakih 5 sekundi. Klikom na određenu vest učitava se jedna jedina **news.php** na kojoj se nalazi opširniji sadržaj kilknute vesti. Slike, naslovi i opisi za "Latest news" dohvatani su takodje iz posebnog JSON fajla.

Registracija i logovanje

Na dnu navigacionog menija nalazi se dugme za registraciju odn. logovanje. Klikom na dugme otvara se forma za Sign Up/In korisnika u obliku modala. Formu je moguće zatvoriti klikom na "x" ili klikom na bilo šta van modala. Prikaz forme je rađen pomoću nativnog JavaScript-a.

Nakon unosa podataka, pomoću regularnih izraza, vrši se provera:

- Za email proverava da li je domen sa ICT-a (@ict.edu.rs) i da li je u formatu "ime.prezime.broj.godina@ict.edu.rs" (za profesore broj i godina ne treba da se unose).

- Za password se proverava da li ima minimum 8 karaktera, barem jedno malo, barem jedno veliko slovo i barem jednu cifru.

- Za name & last name proverava da li je početno slovo veliko, 3 minimum a 16 maksimum karaktera po reči, dozvoljeno više imena i prezimena;

Za student ID proverava da li je format "index / godina" (dozvoljeni i indexi za master studije (do 2000/17)

- Da li se password i confirm password poklapaju. Tek kad se poklope onda znači da je dobro uneto. Pravilno uneti podaci ispisuju se ispod Sign in forme. Za svaki neispravan unos dobija se obaveštenje odmah ispod inputa.

gallery.php
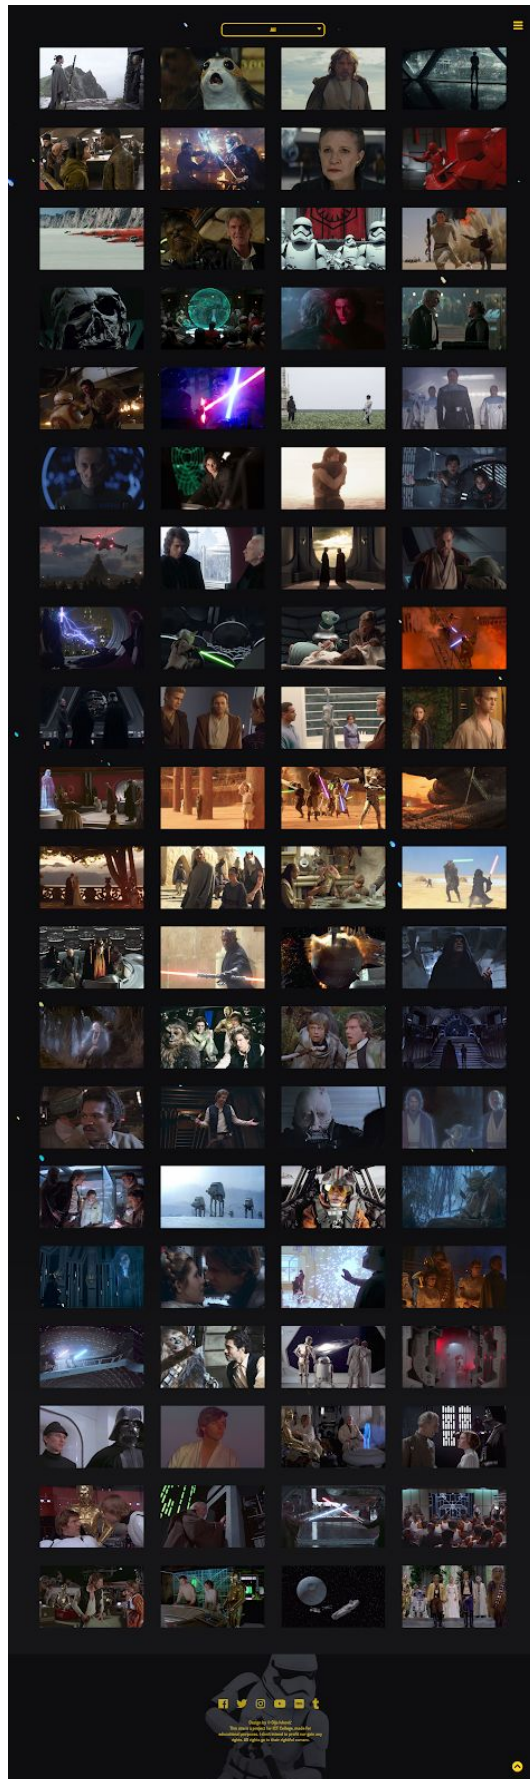

Galerija je realizovana putem JSON objekata koji *nisu* dohvatani preko AJAX-a, već se radilo konkretno sa nizom objekata. Po učitavanju stranice iscrtavaju se svi objekti, kao i kada se odabere "All" u custom selectbox-u. Select box je napravljen u HTML-u zbog SEO-a, ali je inicijalno sakriven kako bi se bolje stilizovali div-ovi koji zamenjuju selectbox. Custom selectbox ima istu funkciju kao i običan selectbox.

Kada se odabere određena opcija selectbox-a, filtriraju se slike po izabranom filmu tako što se iscrtavaju samo one koje prolaze uslov. Ako se vratimo na "All" opciju, ponovo se sve iscrtavaju.

Galerija sadrži optimizovane slike koje se, klikom na iste, proširuju i prikazuju u krupnom planu pomoću **lightbox plug-in-a.** Klikom na "x" ili bilo gde na strani, modal slike se zatvara.
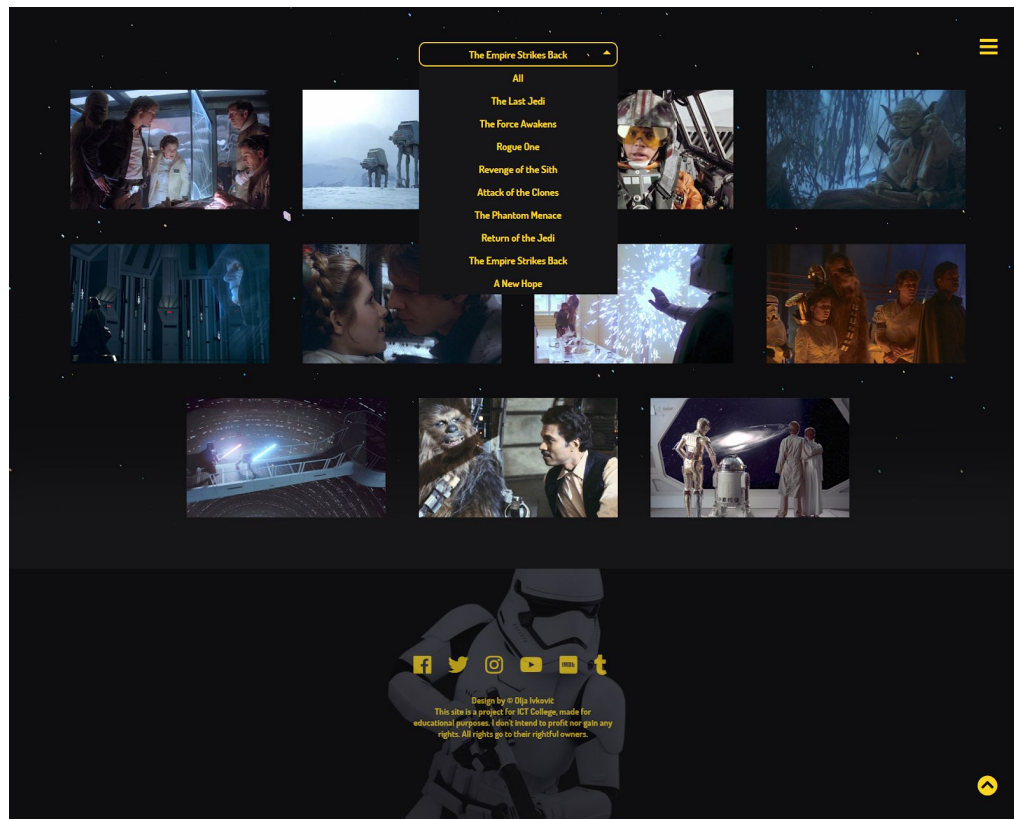

news.php

News stranica je template za sve vesti. Na index.html stranici može se videti slider vesti, na čiji klik naslova se učitava uvek news.php. Ali, pomoću regularnog izraza zna da "čupa" vrednost ID-a iz URL-a i po tome zna koju vest iz JSON-a da servira putem AJAX-a. Ovom metodom pošteđeni smo kreiranja zasebnih html stranica za svaku vest. Svaka vest ponaosob ima svoj JSON fajl u kome su slike i pasusi. Zahvaljujuci paginaciji, sa news.php strane uvek možemo učitati bilo koju od 12 vesti, tj prethodnu, sledeću ili bilo koju vest iz JSON-a. Na prvoj vesti ne postoji "previous", a na poslednjoj ne postoji "next".

3 primera...

WHY THE LAST JEDI IS A POWERFUL FABLE ON THE IMPORTANCE OF TEACHING

Teaching and learning is among the most prevalent motifs in Star Wars, particularly in Star Wars: The Last Jedi. The mentor figure instructs the willing student in the ways of the Force. However, it's not that cut and dry in Rian Johnson's film. It's much more of an unorthodox process for the Force-wielders on Ahch-To, and provides a masterful commentary on what pedagogy is all about.

Yoda

Perhaps no Star Wars instructor demonstrates this better than Yoda. He appears to call down lightning on the uneti tree and destroys the bound library of Jedi knowledge, much to Luke's shock and consternation. Yoda is modeling a valuable tool used by many educators: adaptability. As a teacher, you may have an airtight lesson, but if you do not know your students, the lesson may fall flat. Hence, the need to modify the initial plan to best serve the needs of the learner. Yoda knows Luke is hurting, encourages him to take himself a little less seriously, and tells him failure is the best teacher. An unconventional philosophy for some, but Yoda sees things in a much more enlightened way.

Luke Skywalker

Since the time when he bravely threw down his lightsaber in the Emperor's throne room, his faith in himself and the Force has waned; he believes the Jedi viewpoint and philosophy is part of what led to his perceived failure with Ben Solo and his plan to resurrect the Jedi Order. He has forgotten how to adapt and modify his point of view. He thinks he failed the galaxy, and is temporarily incapable of seeing things from a different perspective. He goes so far as to close himself off from the Force, which is problematic, considering that the Force is a big part of who the Jedi Master is. In short, his failure is complete, or so he thinks.

Luke blames himself for Ben Solo's fall to the dark side. Ben Solo made his own choice to turn to the dark side, but Luke does not appear to acknowledge this fact. Instead, he turns to his own pride and conceit, which inadvertently helps catapult the galaxy into further turmoil. Failure is the greatest teacher, but you have to be willing to embrace this, turn from hubris, and learn from your mistakes.
5 HIGHLIGHTS FROM THE SOLO: A STAR WARS STORY TEASER TRAILER

The teaser trailer for Solo: A Star Wars Story is here, offering a portrait of the scoundrel as a young man — and so much more. We get Han, Chewie, new characters, new vehicles, weird aliens in floating jars, and some giant tentacles. Here are five highlights of many.

1. "I'm gonna be a pilot. Best in the galaxy." Only one person could have the bravura to say that and the talent to back it up. For anyone who loves Han Solo, it's thrilling to turn back the clock and see the rogue scoundrel before he met Luke and Obi-Wan in Mos Eisley, before he said "I know," and before he became a legend. The opening narration by Alden Ehrenreich, delivered with classic Solo world-weariness, gives us a glimpse of who Solo was and where he's going. "I've been running scams on the street since I was 10." We're not surprised.

2. Hello, what have we here? The style. The smile. That's Lando, and Donald Glover — in just a few images — manages to capture the fan-favorite's essence perfectly. He appears cool and collected (until he's not, like when a giant tentacle is about to swat the Falcon), and we can't wait to see more of him.

3. The Millennium Falcon — was clean? Maybe the biggest shocker of all is that a ship that's been called a "hunk of junk," a "bucket of bolts," and "garbage" ever looked remotely nice. This teaser trailer shows that before we first saw it in all its beat-up glory (and still thought it was the coolest thing ever) in A New Hope, the Falcon had indeed seen better days.

4. That Western feel. From a desert standoff to the mention of a "crew," much of the imagery and tone of the Solo: A Star Wars Story teaser trailer seems rooted in classic Westerns — appropriate, considering that the genre was a major influence on the original Star Wars. And especially fitting for an early tale about a scoundrel who blasts bounty hunters under cantina tables.

5. Home run. We've seen Han pull off some fancy moves with the Falcon, and this might be the best. With a TIE fighter close by, Han spins, smashing the smaller craft away and into a fiery explosion. Just awesome, and a moment that exemplifies the Falcon's can't-be-matched cool factor. For best results, play on repeat.

Bonus: "I might be the only person who knows what you really are." Actress Emilia Clarke's Qi'ra brings some straight talk to Solo, and Ehrenreich's reaction is pure Han: trying to be tough yet letting his vulnerability sneak through. It's a very human moment, and that relatability is why Han Solo remains our favorite nerf herder.

author.php
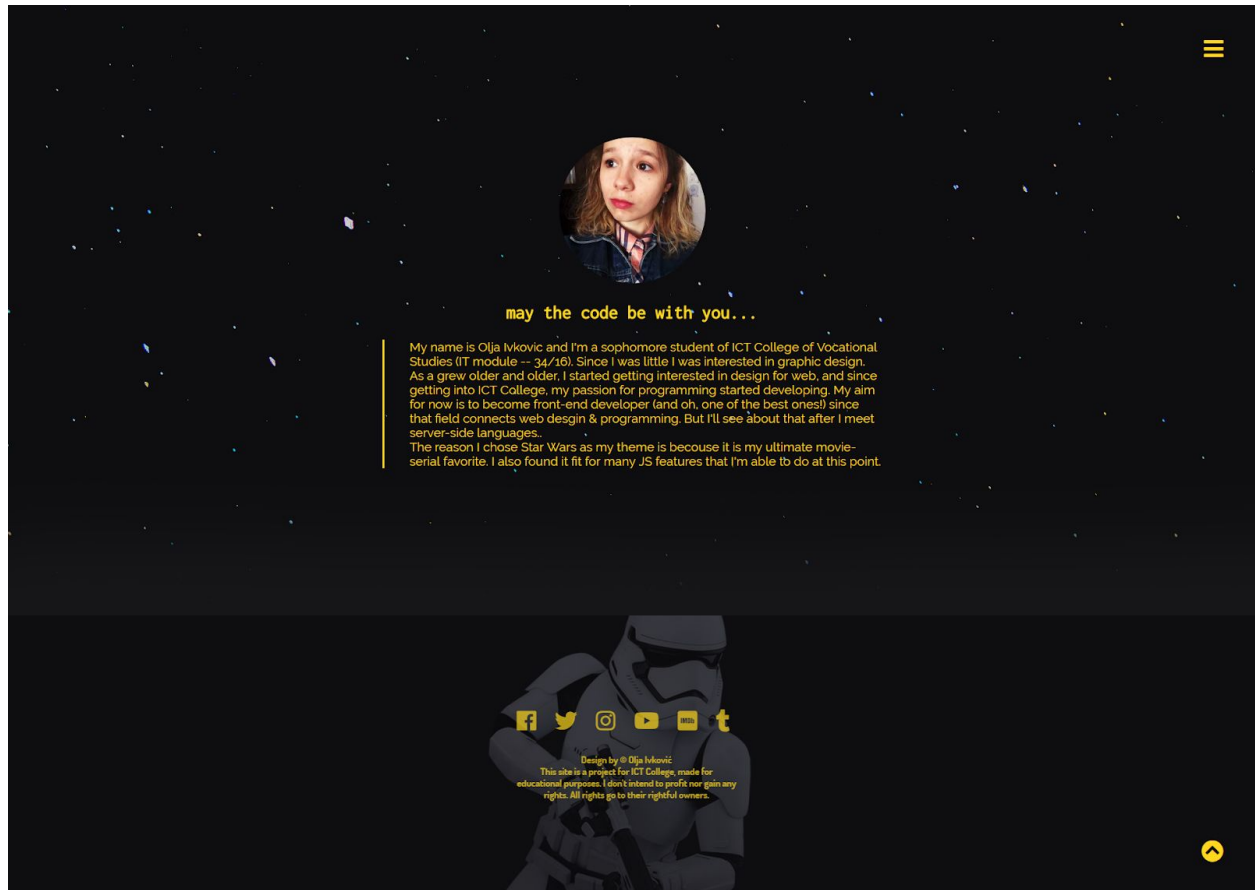

Na ovoj strani nalaze se informacije o autoru sajta. Od JavaScripta iskorišćena je jedino moja funkcija "slowWrite" koja polako ispisuje slovo po slovo prosledjenu rečenicu. Ista je upotrebljena na index.php strani.

    <div id="about">

      <h1>may the code be with you...</h1>

      <p>My name is Olja Ivkovic and I'm a sophomore student of ICT College of Vocational Studies (IT module -- 34/16). Since I was little I was interested in graphic design. As a grew older and older, I started getting interested in design for web, and since getting into ICT College, my passion for programming started developing. My aim for now is to become front-end developer (and oh, one of the best ones!) since that field connects web desgin & programming. But I'll see about that after I meet server-side languages.. </p>

      <p>The reason I chose Star Wars as my theme is becouse it is my ultimate movie-serial favorite. I also found it fit for many JS features that I'm able to do at this point.</p>

    /*

    Show context menu for image on right-click

    There is a div containing the navigation that spans the entire image and lives above of it. If

    you right-click, you are right clicking this div and not the image. This prevents users from

    saving the image or using other context menu actions with the image.

    To fix this, when we detect the right mouse button is pressed down, but not yet clicked, we

    set pointer-events to none on the nav div. This is so that the upcoming right-click event on

    the next mouseup will bubble down to the image. Once the right-click/contextmenu event
occurs

    we set the pointer events back to auto for the nav div so it can capture hover and left-click

    events as usual.

    */
